ALERATEC 1:15 DVD/CD Tower Publisher SLS™
LightScribe Disc Publishing System
Part # 260178

The Aleratec 1:15 DVD/CD Tower Publisher SLS is a stand alone LightScribe disc publishing system with the capability of simultaneously producing up to 15 DVD/CD copies or clearly labeled discs, and no computer is required. Before the introduction of the 1:15 DVD/CD Tower Publisher SLS, disc publishing towers required connection to a PC running sophisticated disc publishing software to duplicate and LightScribe label discs. The duplicating and LightScribe labeling intelligence is built into the 1:15 DVD/CD Tower Publisher SLS controller. This DVD/CD publisher can copy as many DVDs and CDs as you need and with LightScribe Disc Labeling technology you can laser burn custom labels in the same machine. The 1:15 DVD/CD Tower Publisher SLS is a simple tower construction that makes 15 DVD/CD copies or 15 silkscreen quality LightScribe labels simultaneously making it a very effective production publishing system.

Features

- Up to 15 simultaneous DVD/CD copies or clearly labeled discs
- Removable 250GB Hard Disk Drive to store disc images and label files
- Aleratec one touch USB connect
- DVD-ROM drive for fast on the fly copies
- Laser burns disc labels
- No messy markers or costly ink cartridges, toner, or ribbons
