C	Solar Panel	1

## Set-Up and Operation

**CAUTION:** Do not use sharp tools or equipment such as a knife or scissors when removing the protective material, as it may damage the product.

**INFORMATION:** Please remove the plastic film on the solar panel. This protective film is to prevent damage during shipping. Failure to remove the film will result in the solar panel not functioning properly.

**Step 1:** Insert the plug into the socket under the solar panel.

**Step 2:** Put the solar panel on the top of umbrella and hide the plug and wire inside the groove at the top of umbrella. Then turn the solar panel clockwise. Do not over tighten.

**Step 3:** Insert the bottom pole into the upper pole while pressing the snap button on the upper pole until the the snap button locks into position.

**Step 4:** We recommend that you stand and secure the umbrella to an umbrella base (not included). Secure the umbrella pole firmly by tightening the locking nut.

## Set-Up and Operation

**Step 5:** Put the solar umbrella in direct sunlight to charge the batteries for 8 hours before the first use.

**CAUTION:** YOU MUST CHARGE BATTERY BEFORE FIRST USE. Please note that battery can discharge if they are left unused or uncharged for a long period of time. Since there can be a six-month period between production and final customer purchase, we recommend you charge your solar umbrella for at least 8 hours in direct sunlight before the first use. Failure to charge the battery will result in premature dimming of the lights in your new solar umbrella. For everyday normal use, turn the light switch on at night when you want to use the solar light and turn off the switch after use. **MAKE SURE THE LIGHT SWITCH IS IN THE OFF POSITION AND IN DIRECT SUNLIGHT FOR THE SOLAR PANEL TO RECHARGE THE BATTERY**

**Step 6:** To open the umbrella, turn the crank handle in the clockwise direction until the canopy is fully open.

**Step 7:** To tilt the umbrella to your desired angle, press the Tilt Button to release the umbrella top then release the button to maintain the desired angle.

**Step 8:** Press the light switch to turn on/off the solar lights.

**Step 9:** To close the umbrella, the main pole must be in the upright position, then continue to crank counterclockwise or opposite direction to close umbrella. Use tie straps to secure canopy.

# Battery Replacement

**Step 1:** Twist counterclockwise and remove the solar panel from the top of the umbrella.

**Step 2:** Pull the plug out of the socket under the solar panel. Pull by holding the plug, not by pulling on the wires.

**Step 3:** Place the solar panel upside down on a flat, non-abrasive surface to avoid scratching. Remove two (2) screws on the solar panel bottom case.

**Step 4:** Carefully open the bottom case and set aside. Replace the battery, matching the +/- on the battery with the +/- on the battery case.

**Step 5:** Carefully put the bottom case back. Align the screw holes and replace the screws. Do not over tighten the screws.

## Care and Maintenance

---

See the enclosed Sunbrella® care and cleaning insert for canopy maintenance.

## Warnings and Cautions

---

**DANGER:** Keep children out of the assembly area during assembly.

**WARNING:** Read the entire instructions before beginning and follow the steps outlined. Failure to assemble and install as instructed could result in the umbrella tipping over causing personal injury and/or property damage.

**WARNING:** Do not use this umbrella during periods of high winds and rain. Failure to do so may result in personal injury and/or damage.

**CAUTION:** Assemble and use umbrella on flat ground.

**INFORMATION:** Recommend inserting the umbrella into an umbrella base (not included) to secure umbrella in an upright position.

**INFORMATION:** Close the umbrella and use the canopy ties when umbrella is not in use.

**INFORMATION:** Schematics in this manual are for assembly and operation illustration only. They may differ from the umbrella's actual appearance.
