- 4. Vehicle's year, make, model, trim level or package, suspension or tire upgrades/modifications and 2 wheel (2x4) or 4-wheel drive (4x4)**

The DK2 RAMPAGE II 213.3 cm (84 in.) personal snow plow is designed and perfectly built to take care of individual driveways. The plow comes with a 1360.8 kg (3000 lb.) capacity electric winch with a wireless remote control to lower or raise the blade. Simply slides on and off of a vehicle specific 2-point custom mounting system (included). The DK2 RAMPAGE II personal snow plow is not built for commercial use. The 2-point custom mounting system offers the strength and reliability of a commercial style mounting system on a residential use plow. This plow is equipped with all the standard features you need to be ready for the snow.

Features:

- 213.3 cm x 55.9 cm (84 in. x 22 in.) blade
- Electric winch lifting system
- Connects to a DK2 custom 2-point mounting system (included, vehicle information required)
- Wireless remote control to raise and lower the blade
- 3 position manual blade angling with single lever: Straight on plowing, 33 degree left and 33 degree right angling capabilities
- Deflector kit: Decreases snow spray on windshield increasing visibility of what's ahead of the vehicle
- Plow markers: Allow for easy visibility of blade width from inside the vehicle to avoid collisions with stationary objects
- Skid shoes: Allow for easy plowing of gravel surfaces or uneven terrain
- Locking castor kit: Allow easy plow attachment, removal and roll away storage
- Heavy duty steel construction
- Ultraviolet resistant powder coat paint

Included Accessories:

- DK2 custom 2-point mounting kit
- 1360.8 kg (3000 lb.) capacity electric winch
- Wireless remote control to lower or raise the blade (no drilling into vehicle for wires)
- Locking castor kit
- Skid shoes
- Plow Markers
- Deflector Kit
