Highlights

Convenient for travel

The Philips AVENT Microwave Sterilizer has been designed to fit most microwaves in the market. Its small size makes it convenient for travel, ensuring that you always have a sterile bottle when you are going on a short overnight trip or on a longer holiday abroad. Also ideal as an extra sterilizer for the grandparents' house. Dimensions: 6.5 (H), 11 (W), 11 (L) Inch.

Ready in 2 minutes

Just add water, load and place in the microwave for as little as 2 minutes. The exact length of the cycle will depend on the wattage of your microwave: 2 min at 1100-1850 Watt, 4 min at 850-1000 Watt, 6 min at 500-850 Watt.

Clips close the lid securely

The microwave sterilizer has clips on the side for extra safety. The clips close the lid securely so hot

water cannot easily escape when you take the sterilizer out of the microwave. The side grips have also been designed to stay cooler to help you handle the sterilizer safely.

Kills 99.9% of harmful germs

Sterilizing protects your baby from particularly harmful bacteria until his immune system is strong enough. Operating at a higher temperature than dishwashers, Philips AVENT Sterilizers kill 99.9% of harmful germs and contents stay sterile for 24 hours if the lid is unopened.
