

# VIATHON

1. Carefully pull the bike out of the box horizontally.

2. Remove soft packaging from bike, use side cutters to remove zip ties/ Velcro straps. Save user guides and product manuals for future reference. Save the box and soft packaging if you plan to travel with the bike or pack it again in the future

3. Open the small part/ accessory box. This box contains reflectors, front Thru axle skewer, 1 Presta Cycle Torque wrench with a 5 bit pack consisting of a 4, 5, 6, T20, T25 hex bits, and carbon paste.

4. Refer to the User Manual included in the small part/ accessory box for assembly instructions.

## QUICK START GUIDE

A group of cyclists is riding on a paved road that curves through a desert landscape. In the background, there are large saguaro cacti and a range of mountains under a clear sky. The scene is captured in a cinematic style with a dark, semi-transparent overlay that frames the text.
