

User Guide

RECHARGEABLE HEADLAMP OT-300L

Your Ozark Trail 300L Rechargeable Headlamp has easy access multiple switch functions: Spot Light Button Switch for Spot Light, Area Light/Red Light Switch for softer area lighting and a Red Light mode to preserve your night adapted vision.

OPERATION

Spot Light Button Switch:

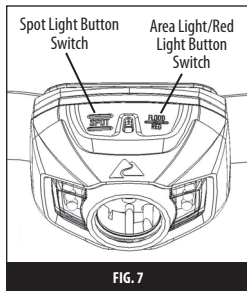

1. Press once for "High", twice for "Low", third to turn "Off". (Fig. 7)

Area Light/Red Light Button Switch:

1. Press once for "High", twice for "Low", third to turn "Off" area light. (Fig. 7)

To access Red Light Mode:

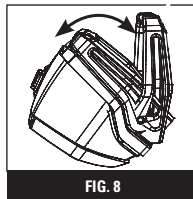

1. Press and hold down Area Light/Red Light Button Switch until red light turns to "ON" (approximately 2 seconds), twice to turn "Off". (Fig. 1 & 6)

Aim Adjustment

Your Ozark Trail 300L Rechargeable Headlamp is equipped with a self-locking, aim adjustment feature.

1. Grasp sides of headlamp and rotate to desired position. (Fig. 8)

IMPORTANT INFORMATION

1. Operating time for your Ozark Trail 300L Rechargeable Headlamp depends on continuous or intermittent use. Intermittent operation extends the run time of the battery.
2. The LEDs are a lifetime light source. They will never need to be replaced.

WARNING! Do not disassemble product. Do not charge the battery if the product / battery is cracked or damaged. Do not short terminals, crush, heat above 140 Degrees F. (60 Degrees C.), throw into a fire, or incinerate. Please recycle.

Carefully read all instructions before use and save for future reference.

The diagram (Fig. 1) will help you locate and identify various features and functions used in the User Guide of your Ozark Trail 300L Rechargeable Headlamp.

CHARGING THE BATTERY

Your Ozark Trail 300L Rechargeable Headlamp contains a rechargeable lithium-polymer battery.

NOTE: The USB cable is for charging only/power only.

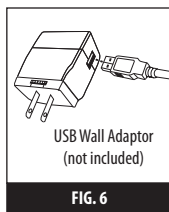

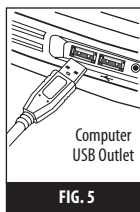

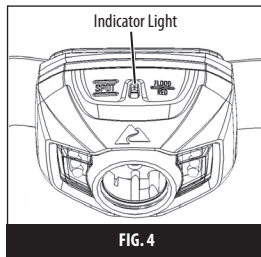

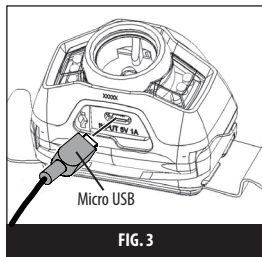

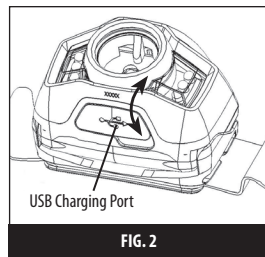

1. Open the Micro USB charging port (Fig. 2)
2. Plug Micro USB into input port then plug other end of cord into any USB outlet on computer, wall adaptor (not included), etc. (Fig. 3, 5 & 6)

NOTE: Charging while using a USB wall adaptor will be faster than a computer USB port

3. When properly charged, the indicator light on the top of the headlamp will glow green. (Fig. 4)

NOTE: Recharge the battery immediately when light output is low. Red indicator light will turn on when battery is low.

4. When battery charging is complete, remove the Micro USB from the charging port and close the USB cover (Fig. 2).
